

BIRTHDAY PHOTOGRAPHY SESSIONS

Let's Capture Your Celebration

This sessions are a great way to capture the moments your celebrate, particularly your goofy inside jokes, iconic eye rolls, and precious toddler smiles, with a little hint of sexy as well. I offer a variety of session types and durations to accommodate your birthday needs, **but one thing's for certain:** These sessions are fun, low-stress times to make memories with you, your friends and family—no need to 'smile perfectly' or pose a certain way! The result? A gallery of candid and traditional photos you can use for holiday cards, graduation announcements, or proudly display on your mantel or flood social media.

Please select the session type you'd like to book below, as well as any optional add-on services you'd like to add to your proposal total.
